# Siddharth **Tiwari**

Jalandhar, Punjab, India | itiwarisid@gmail.com | linkedin.com/in/tiwarisidd |+919877219983

## Career Objective

To work in a learning and challenging environment, utilising my skills to the best of my abilities and contributing positively to my personal growth and growth of the organisation as well.

## Skills

| | | |
|---|---|---|
| Languages | : | JavaScript | PHP | Dart | C++ | Python |
| Technologies | : | Node.js | Express.js | Flutter | React.js |
| Databases | : | MongoDB | MySQL | SQL Server | PostgreSQL |
| Tools | : | Git | VS Code | Docker |

## Experience

➢ **SQL Server - PostgreSQL Database Sync**
- Created real time and scheduled sync-up methods for cross database replication. Reduced the sync time of ~55 Million rows from 4.5 hours to less than 45 mins.

➢ **Frontend Work**
- Created frontend modules for Managing and Onboarding Users, Monitoring and Limiting API usage, WebHook Management using Web Components along with Mustache Templating and vanilla JavaScript based on our in-house server Monkshu.

➢ **Freelance Work**
- Developed an ECommerce Platform, an Inventory Management System and few other small applications using React.js, Node.js and PHP.

➢ **Pathfinder**(College Project)
- A mobile app that lets you flag the location of an animal or people that need help to people that are willing to help.
